

CURIOSITY

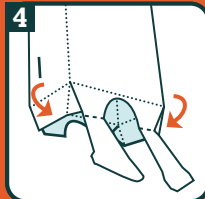

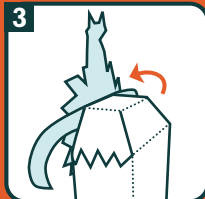

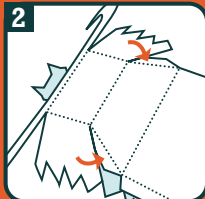

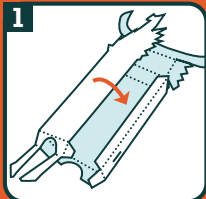

CALENDAR OF THE MONTH CLUB

2011

JANUARY 2011

BUILD THE PAPER CRAFT! It's easy: cut out, fold on dotted lines, and glue in order.

TIPS

Don't need a calendar? Cut along the Yeti's fingers to remove the calendar. But be ready for some serious bare-chested yeti action!

Hate cats? Just cut the cute little guy off to free your Yeti from feline servitude.

ALL ABOUT THE YETI

There once was a cat-loving Yeti,
Whose favorite dish was spaghetti,
'Til he went to Nantucket
And looked in a bucket
And saw ice cream topped with confetti.

Our loveable Yeti calendar is the perfect addition to any desk or flat surface. In the office, at home, or even on your dashboard, this handsome beast will deliver a touch of flair and practicality to any barren expanse.
